

Quick...

Use the Yellow Pages to find a government listing.

...Gotcha!

If you live in a big city, take a look at the Yellow Page listings for state, local and county government – then school districts too.

That's a lot of pages.

Very smartly, when governments know they are about to do something that might affect you, they buy

a Public Notice in a local newspaper.

Newspaper readers glance over these notices to see what's up.

Newspapers made it easier to do that by also printing the notices on line at www.publicnoticeads.com/az. Our notices are combined with notices from all the other newspapers in Arizona in one on-line database that is free, quick, and word searchable to help you be specific about what you want to know.

Legislators are Smart!

They know local publication gives you the opportunity to read notices from all sorts of public and private entities.

Newspapers improved that legislative intelligence almost a decade ago with www.publicnoticeads.com/az.

No matter where you read your local public notices in your newspaper you also can read all Arizona public notices important to you.

Public Notices Arizonans want to know

Read them here and on line in one place
